

Reliable mobile power from Cummins Onan brand generators

New name, same reputation, more products.

Now the Onan brand is Cummins Onan, a brand of Cummins Power Generation Inc., providers of reliable mobile power systems. The Cummins Onan line of power generation equipment meets every need for utility and telecom fleets.

The Cummins Onan brand brings you heavy-duty, field proven generators, designed for long life, for all of your mobile power needs.

The Commercial Quiet Gasoline™ generators feature exceptionally low noise and vibration, easy installation and diagnostic capability. Digital regulation maintains precise voltage stability as loads change. The 5500 kW and above models are designed to consistently perform in applications where dependability and high quality power are essential. 2008 CARB EVAP models are also available.

We also have a brand new line of portable generator sets, with and without inverters — for use anywhere you need power.

The Cummins Onan brand brings you the Onan name you trust for generators, now backed by the reputation of Cummins. The extensive Cummins Onan support network ensures that no matter where your truck goes, you'll be prepared.

For product information, contact your local Cummins Onan dealer, part of our support network with 600 locations across North America. Call 800-888-6626 or visit www.cumminsonan.com
