

ONAN PUTS RV POWER IN THE PALM OF YOUR HANDS

Introducing Onan® Energy Command™ 15W (EC-15W)

The Onan EC-15W is a cost-effective wireless generator remote control with the following benefits:

- Remotely starts and stops a generator from up to 100' away
- Compatible with all current model Onan RV generators
- Easy for any RV owner to install; instructions included
- Works with current remote switches and control panels*

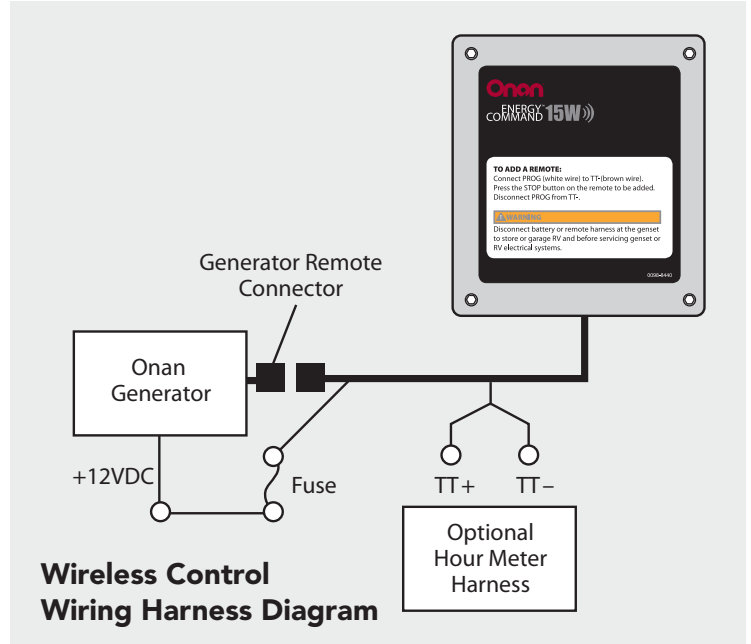

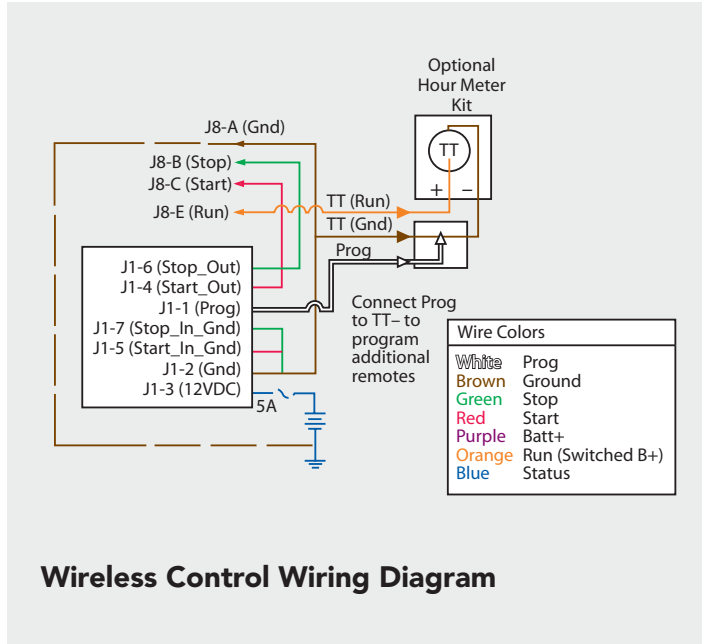

Onan Energy Command 15W consists of a receiver that is wired to the generator and a hand-held transmitter that is used to remotely start and stop the generator.

* To use in conjunction with other remote switches, the proper "Y" harness must be separately purchased and installed.

ENERGY
COMMAND™

Features:

- Start your Onan RV generator from up to 100' away
- Compatible with all current model Onan RV generators: MicroLite, MicroQuiet, Marquis & Quiet Diesel
- Easy customer installation with included instructions
- Accommodates up to four remotes
- Works in conjunction with current remote switches
- Digitally encrypted code ensures remote starts only your generator
- Remote can be used as a keychain or can be wall mounted
- LED indicator confirms remote transmission

Specifications

- Operating temp range: -40C to 60C (-40F to 140F)
- Operating voltage range: 8 to 17Vdc
- Max. current through start/stop relays: 4Adc (typically a few mA)
- Nominal current draw: 10mA (12V) 150mA (12Vdc) when button is pressed
- Reverse polarity protected, Short circuit protected = 5A standard automotive fuse on input
- RF transmitting frequency range: 305.3 - 306.3mHz
- Installed transmitter range: ~100ft typical
- Tested to comply with FCC standards
- Estimated transmitter battery life: 2-5 years depending on use
- Security: 1 in 2,000,000 chance of repeating codes
- Number of remotes possible: 4
- Vibration tested to typical road and engine induced vibration levels
- Tested in high humidity and water spray environments
- Road tested

Accessories

- Spare key fob (#018-02150)
- Diesel Y harness (#044-00088)
- KV Y harness (#044-00086)
- Gas Y harness (#044-00087)
